## DETAILED ACTION

### *Allowable Subject Matter*

Claims 15, 21-23 are allowed over the prior art record.

1. The following is an examiner's statement of reasons for allowance:
2. The closest prior art of record Weidemer, (US Patent No 5,155,680) teaches computer software security and billing system;<http://www.rohan.sdsu.edu/~infosys/ist/resource/stdlabs.pdf>. teaches public usage internet terminals. Shiozaki (JP 2004258829) teaches a method for public usage internet terminal.

What they fail to teach or suggest:

A.

A selective access computer system comprising: a computing workstation having at least one software application and at least one device; a selective access mechanism for obtaining electronic payment authorization for a user's financial instrument and for permitting selective access to the computer workstation upon payment authorization for the user, the selective access mechanism including: a credit card and bank-issued debit card reader connected to the computing workstation for obtaining payment authorization; a resource tracker configured for determining an amount to be charged to the user based on at least one of a total amount of time that the computer system is used and a number of requests to the at least one device of the computer workstation; a desktop user interface to enable access, upon receipt of payment authorization, to at least one of: a program monitor configured for enabling selection of the at least one software application; and a peripheral input/output monitor configured for enabling selection of the at least one device; and a screen saver configured for appearing on a display of the computing workstation to prevent access to the desktop user interface of the computing workstation until payment authorization is received, the screen saver including at least one of: a tools preview function displayable on the screen saver and configured to identify tools accessible at the computer workstation, the tools including the at least one software application and the at least one device; and a price function on the screen saver and configured to identify information prices for using the tools at the computer workstation.

These distinct features render claim 15 allowable.

Claim 21 is dependant upon claim 15 and is therefore allowable for at least the same reason.

B.

Art Unit: 3621
